GLOBE CITY has made another step forward by donning the habiliments of municipal government. Although a sein Nogales prosperous and well conducted camp, the town is bound to forge to the front under this new regime of affairs. It was a wise move on the part of the property bolders of the copper camp to incorporate. The taxation incident to a municipal government will no doubt be felt for some time, but the numerous protections to be derived and the enhanced values in reality will more than compensate for the immediate outlay necessary to put the machinery of government in operation. Little Pimples Turn to Cancer.

Cancer often results from an im-purity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S. which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last lit-
